## Standing Strong

We're walking the same line again  
our heads up high 'cause we are men  
As music saves our mortal soul  
as one we'll reach our final goal  
And we're still standing strong

We're standing strong  
No matter what, as friends we go along  
We're standing strong No matter what may come  
We're standing strong  
No matter what, as friends we're marching on  
We're standing strong No matter what may come

We have had our bitter tears  
But no more will it be our fears  
The enemy is past and gone  
The future's bright as we have won  
And we're still standing strong

We're standing strong We're standing strong  
No matter what, we're still standing strong  
We're standing strong We're standing strong  
No matter what, the Clan is standing strong

## **Don't Walk Alone**

First time I saw you,  
the world was in our hands  
I knew it's wrong to,  
make all kind of future plans for us  
You were my best friend,  
no you were not alone  
I could have told you : ...

Don't walk alone, don't walk alone  
Don't fight the darkness on your own  
You need a friend to take you home  
Don't walk alone, don't walk alone

I suffered coldness,  
and bleeding in my heart  
I needed you there,  
o help make a brand new start for us  
It's lonely out there,  
don't walk on your own  
You should have told me : ...

## Finally Free

Hear now, this is a tale  
Of one man who fought  
And died for a nation to be  
And all of the Scots  
Will remember young William  
Due to his deeds they are free

And there in the Highlands  
the clans growing strong  
They fight for a nation to be  
The pipers will play  
and the drums will be banging  
'Cause Scotland is finally free

On September Eleven  
Of twelve ninety seven  
The story of Scotmen begun  
When they slaughtered the English  
And drove them back home  
It's a tale that's written in stone

By Falkirk the nobles Deserted the ranks  
It was treason to their own land  
And many great Scots  
Have died by longshanks  
But this nation was still holding fast

## No Stress

I look into the mirror  
a reflection of myself  
I see a guy with feelings  
not at the age of twelve  
Regarding his own business  
trying to keep his friends  
Although it isn't easy  
hey that's live in the end

NO STRESS TONIGHT  
Don't give in to the fight  
NO STRESS TONIGHT  
You've got to  
you've got to do it right

Organising trips  
and managing the band  
Confidence and trust  
they go hand in hand  
Keep the train on track  
and defend all the attacks  
Whenever there is trouble  
you don't turn your back
